

AWE

ASPIRING WOMEN EVERYWHERE

ARE YOU SERIOUS ABOUT
DEVELOPING FEMALE LEADERS?

Do you know someone who is keen to create a career that makes a difference. A career where they can lead intentionally and confidently whilst maintaining energy and balance?

Nominate an aspiring leader to join our evidence based 3 day program.

Full details www.positivelybeaming.com.au

Women's leadership is more than important in today's world, it's imperative. Organisations led by inclusive leadership teams make better decisions that deliver better results.

The qualities required to lead in the 21st century include the ability to connect, collaborate, empathise, and communicate—all qualities that tend to be "female" in nature. Women in leadership roles position organisations in a way that makes them fit for the future.

JANET RICCIO, EXEC V/PRESIDENT
OMNICOM GROUP

Let's work together to identify and nurture aspiring female leaders -whatever their age. Giving them the opportunity to develop the confidence and skill set to lead authentically.
